

Cupid

Pardyalone

I could say, "I love you," but I'm lyin'
I got demons in my head that been trying to kill me
Hearing all there voices keep my quiet
I need time to breath
Baby, tell me, how are you not listening?

Uh, Cupid
Shot me in the heart, that nigga ruthless
Now you can't tell me that you never loved me (Huh, wake up)
I cannot fall in love with you, it's just a dream
Fuck and make up like you love me
Baby, stop lyin' (When I get drunk)
Callin' anyone, I need someone (I need someone)
Demons, I can summon any one of them, ayy
I got reasons I've been fuckin' bad-bitch-summers up, ayy
Baby, tell me when you're feelin' too uncomfortable, ayy

How the fuck could you hurt me?
Got these demons in my head, the pills ain't working
I can't forget your name, and fuck it, I'm depressed
Look, I wish you the worst 'cause I gave you the best of me
Ayy, bitch, enjoy Hell
Please do not hit up my phone, I told her, "Farewell"
I ain't trippin' on a bitch that's with me but for herself
Lately, I'm really fuckin' sad, but I don't want no one to help
Look, I just don't get it
And I told you, "I don't wanna feel this pain again"
Look, I hate it when you tell me that you love me, man, I know that you be f
akin'
Ayy, I don't really care you who wake up with
Man, I fuckin' hate-

Cupid
Shot me in the heart, that nigga ruthless
Now you can't tell me that you never loved me (Huh, wake up)

Baby, tell me when you're feelin' too uncomfortable, ayy

Ooh, yeah
She don't like me, too bad
And I need visine, eyes are too red
Got too high, feel like I'm dead (Uh, breathe)
Pump, pump, pump it up
Bitch, you, talk, talk, talk a lot, way too much
And you got me fucked up if you don't think I'm fucked up
I'm sayin' way too much
I'm fuckin' faded, I ain't wakin' up
You fuckin' hate me, I ain't change at all
Said I don't love and I can't make this up
Look, I got four words for you, "I don't trust you"

I could say, "I love you," but I'm lyin'

I got demons in my head that been trying to kill me
Hearing all there voices keep my quiet
I need time to breath
Baby, tell me, how are you not listening?
