

Last Time

Pardyalone

I'm so sure it's the last time
That I could ever be right and wrong
I just poured me a good time
Without you

I'm so sure it's the last night
That I'ma be this close next to you
I don't wanna say goodbye
But I have to

My mind's running with you
Till I'm sober
I'm heartbroke with you
Till it's over

Sippin' liquor inside my cup
If it's about a bitch, don't give a fuck
I know I run away too much
But I'm the one that's gotta move on

It's over with
And every word you say goes over me
Fucked up and I'm smoking weed
Blame this shit all on you

I'm so sure it's the last time
That I could ever be right and wrong
I just poured me a good time
Without you

I'm so sure it's the last night
That I'ma be this close next to you
I don't wanna say goodbye
But I have to

My mind's running with you
Till I'm sober
I'm heartbroke with you
Till it's over

I tried not to waste time
But I know it's the same damn timing
All of my friends told me
That you were bad for my anxiety

They were right
And now I'm done with everything
I'm outta patience
Almost damn ran outta pages

I fucked up
But what else am I gonna learn from?
Why the fuck have I been living in the matrix?
Fucking lost myself
Broke down in a burnt down hell

The fuck do I do?

I'm so sure it's the last time
That I could ever be right and wrong
I just poured me a good time
Without you

I'm so sure it's the last night
That I'ma be this close next to you
I don't wanna say goodbye
But I have to

My minds running with, you
Till I'm sober
I'm heart broke with, you
Till it's over

I'm so sure it's the last time
That I could ever be right and wrong
I just poured me a good time
Without you

I'm so sure it's the last night
That I'ma be this close next to you
I don't wanna say goodbye
But I have to
