

Needed To Know

Pardyalone

Close to you, I can smell your perfume
As it fills up the room and reminds me
Of summers I remember kindly
And love that I fell into blindly

6:02, and the sunrise comes through the blinds
And oh God, it blinds me
Like a scene in a movie
I just stare at your beauty

It's morning, you're smiling
It's all I needed to know
You opened your eyelids 20 seconds ago
Sunlight covers your face like you're covered in gold
Oh my, I love you
Good morning, beautiful

It's morning, you're smiling
It's all I needed to know
You opened your eyelids 20 seconds ago
Sunlight covers your face like you're covered in gold
Oh my, I love you
Good morning, beautiful
Good morning, beautiful

I woke up from a nightmare
Next to a dream
In a sea full of blankets
I still get nervous
So excuse me, I'm anxious

No, I don't wanna bother you
I kiss your forehead to make sure you're comfortable
Then you look up at me
And it makes me happy

It's morning, you're smiling
It's all I needed to know
You opened your eyelids 20 seconds ago
Sunlight covers your face like you're covered in gold
Oh my, I love you
Good morning, beautiful

It's morning, you're smiling
It's all I needed to know
You opened your eyelids 20 seconds ago
Sunlight covers your face like you're covered in gold
Oh my, I love you
Good morning, beautiful
Good morning, beautiful
