

# Purple Rain

Pardyalone

This time I mean it  
Sippin' on your love  
Drinkin' 'til it's all gone  
'Cause I swear I need it  
Mmmm I was thinkin' this henny is plenty  
Enough enough enough enough  
I don't want to be alone  
'Cause I been searchin' for love and found lust  
I don't want to see you go  
And I won't

Rain drops pouring on my window  
Pop another pill I need something in my system  
Rip those letters apart to forget you  
I need a buzz  
So I'm blowing loud till you get the picture  
This drink to strong I been getting in my feelings  
So I take two more just to know that I can feel it  
Fuck love (Fuck love)

Bitch I need a break  
I'm so fucking tied up  
Heartbreak mistakes

This time I mean it  
Sippin' on your love  
Drinkin' 'til it's all gone  
'Cause I swear I need it  
Mmmm I was thinkin' this henny is plenty  
Enough enough enough enough  
I don't want to be alone  
'Cause I been searchin' for love and found lust  
I don't want to see you go  
And I won't

Eyes rolled back see the whites of my dark soul  
Burning my lungs I inhale all the blunt smoke  
Leave me alone I been killing my insides  
Think that it's time I let go of my damn life  
Purple rain falling on my skin while I cast off  
You broke it off so I know that you moved on  
Stuck in my thoughts six o'clock pour a duce up  
My heart is stone baby girl is Medusa

This time I mean it  
Sippin' on your love  
Drinkin' 'til it's all gone  
'Cause I swear I need it  
Mmmm I was thinkin' this henny is plenty  
Enough enough enough enough  
I don't want to be alone  
'Cause I been searchin' for love and found lust  
I don't want to see you go  
And I won't
