

# Never Be Alone

Paris Hilton

You'll never be alone  
You'll never be alone  
You'll never be alone  
You'll never be alone

I will take you  
To dimensions you never know  
You never know

You'll never be alone  
You'll never be alone  
You'll never be alone  
You'll never be alone

Never seen the stars are falling  
'Til I laid my eyes on you  
You don't have to be lonely  
Because I, I, know just what to do  
Kill the pain, come alive  
Elevate, see the lights  
Levitate, you fall away  
Don't hesitate to synchronize  
As we just escape it  
This is us, the greatest  
So don't let go  
You'll never be alone

I will take you  
To dimensions you never know

You'll never be alone  
You'll never be alone  
You'll never be alone  
You'll never be alone

...
