

Stay Young

Paris Hilton

I never wanted to grow up, no
I wanted to stay young forever more
I never wanted to grow up, no
Somehow there ain't enough time to take it slow

Somebody tell me where we go
When our eyes they finally close (I wanna know)
I never wanted to grow up, no
I wanted to stay young forever more

I'm going out all night
To a party, nothing can stop me
I'ma wear something tight
'Cause I'm a hottie, I'll show off my body

I want to say I lived a life that I loved
'Cause I know all we get ain't long enough

I never wanted to grow up, no
I wanted to stay young forever more
I never wanted to grow up, no
Somehow there ain't enough time to take it slow
Somebody tell me where we go
When our eyes, they finally close (I wanna know)
I never wanted to grow up, no
I wanted to stay young forever more (To stay young)

Driving, nowhere to go
Just the fast lane, I'm going my way
Somewhere that we don't know
It might sound crazy but don't try to tame me

I want to say I lived a life that I loved
'Cause I know all we get ain't long enough

I never wanted to grow up, no
I wanted to stay young forever more
I never wanted to grow up, no
Somehow there ain't enough time to take it slow
Somebody tell me where we go
When our eyes, they finally close (I wanna know)
I never wanted to grow up, no
I wanted to stay young forever more

To stay young (Stay young)
If we ain't here forever, then let's stay young (Stay young)
As long as we're here together, then let's stay young

If we ain't here forever, then let's stay young (Stay young)
As long as we're here together, then let's stay young (Stay young)
If we ain't here forever, then let's stay young (Stay young)
As long as we're here together, then let's stay young (Stay young)
If we ain't here forever, then let's stay young
As long as we're here together, then let's stay young

As long as we're here together
