

Lonesome Ten Miles

Parker McCollum

Feel your rhythm
You are the king of the road
Only thing that you could never could do is darlin', what you'r
e told
Came down from the north last night
The country big and wide
Took a minute to catch my breath
Cause it steals it every time
It's a lonesome
It's a lonesome ten miles
It's a lonesome ten miles

Faster than disaster
You never call me the kid
Kicking cans on a sidewalk street on a '62 Schwinn
Paid for Hammering Brian's house
Paid for training a horse
Caught a love on a smoky roll of ain't what I'm looking for
It's a lonesome
It's a lonesome

I never stayed too far
I never go to close
When I miss you darlin'
I never let you know

I don't miss old Conroe
I know she misses me
8 minutes on a flatbed truck and she gonna see all there is to
see
Caught wind of me being here
I never know how you knew
I swore id never leave like this again
But leaving's what I do
It's a lonesome
It's a lonesome
It's a lonesome ten miles
It's a lonesome ten miles
It's a lonesome ten miles
It's a lonesome
It's a lonesome
