

Wait Outside

Parker McCollum

Hey pretty angel
Flip the switch and turn off the Sun
You hung the stars so you know where they are
And baby and when the night is done and the morning comes
We'll start over again
So good it's gotta' be a sin

I will love you forever
Until the day that I die
I will love you in heaven
I'll just have to wait outside

Tell me when was it a good idea
To try and save a mess like me?
All I want to do, beyond the blue
Is spend my eternity
With you next to me
But until then
If they don't let me in

I will love you forever
Until the day that I die
I will love you in heaven
I'll just have to wait outside

Yeah, I will love you forever
Just like I love you tonight
I will love you in heaven
I'll just have to wait outside

If you got any pull with the man upstairs
Baby, when we get up there
Tell him that I finally did something right
Maybe he'll change his mind

I will love you forever
Until the day that I die
I will love you in heaven
I'll just have to wait outside

Yeah, I will love you forever
Just like I love you tonight
I will love you in heaven
I'll just have to wait outside

I will love you in heaven
I'll just have to wait outside
