

Seed

Parker Millsap

Buried by the lilies
Carried on a spring breeze
Lies the seed I've sewn

Seed, do what you need
Render yourself free
Breathe and become grown

And I will come and find you when the summertime is reachin' fo
r the shadows
And I will come and find you when the summertime is reachin' fo
r the shadows

Girl with the fair hair
Maintans a cool star
As the world flies past

Girl don't get lost in
Places that you've been
Don't let darkness last

And I will come and find you when the summertime is reachin' fo
r the shadows
'Cause I will come and find you when the fallin' leaves are cra
shin' down the plateaus

Well, love it'll take away the things that you never wanted to
kill
Love it'll make you live, it'll make you live
Well, love it'll take away the things that you never wanted to
kill
Love, it'll make you live, it'll make you live
