

Singing To Me

Parker Millsap

The right words
Sometimes they won't be heard
Sometimes my mouth's absurd and wrong
Yes I know
Sometimes I sink so low
Sometimes I shout to show I'm strong

But you've been singin' to me, singin' to me all along
Singin' to me, singin' to me all along
You kept on singin' when everything went wrong

The road noise drowns out my old joys
Sometimes your golden voice gets lost
But if I listen, I hear what I'm missin'
The chorus is kissin' back the frost

You've been singin' to me, singin' to me all along
Singin' to me, singin' to me all along
You kept on singin' when everything went wrong

I lost my bearings
My blank eyes were staring
Scared to try caring for someone
I wasn't trying
My tongue took to lying
Shying away from your song

You've been singin' to me, singin' to me all along
Singin' to me, singin' to me all along
You kept on singin' when everything went wrong

I still don't know what took me so long
