

Ageless

Parks, Squares and Alleys

Feeling alive
Mysteries, ah
Mirror wipe
In the end of time

And every night is night of good conversations
Something in your mind and I feel like I'm ageless
And every night is night of good conversations
Something in your mind and I feel like I'm ageless

Cigarette charm
Small feel, ah
Sideway down
Off our hands

And every night is night of good conversations
Something in your mind and I feel like I'm ageless
And every night is night of good conversations
Something in your mind and I feel like I'm ageless
And every night is night of good conversations
Something in your mind and I feel like I'm ageless
And every night is night of good conversations
Something in your mind and I feel like I'm ageless
And every night is night of good conversations
Something in your mind and I feel like I'm ageless
