

## Forest

## Parks, Squares and Alleys

When I first time saw her  
That was a thing she said  
We are waiting for a summer  
That we never had  
And we walked together  
But it all was wrong  
What makes it better?  
What makes it better?

So may things that scare  
Leave it in the forest  
Leave it in the forest

And light becomes a darkness  
And all becomes a nothing  
And grass becomes a ground  
And I can feell that second is running like an hour  
And I can feell that second is running like an hour  
And I can feell that second is running like an hour  
And I can feell that second is running like an hour  
And I can feell that second is running like an hour

So may things that scare  
Leave it in the forest  
Leave it in the forest
