

# We're Not Just Friends

Parks, Squares and Alleys

I've got a friend  
She calls me brother  
There ain't nobody we can not live without  
We don't need nothing  
Except each other  
But there's no reason to say it out loud

The moon is there for you tonight  
I feel the beating of your heart and  
You should forget it for a while  
We're not just friends  
I know you want me to stop the time, time  
To stop the time, time

I've got enough  
Don't wanna know if  
It leads to nothing, you won't give it a chance  
Leaving your life  
I need to tell you  
You could have known it's gonna be the last dance

The moon is there for you tonight  
I feel the beating of your heart and  
You should forget it for a while  
We're not just friends  
I know you want me to stop the time, time  
To stop the time, time  
To stop the time  
(I've got a friend  
She calls me brother) Time  
(I've got a friend  
She calls me brother) Time
