

Little Ole Country Boy

Parliament

Here I am riding along in this ambulance
To the city jail
Going to jail accused of being a peeping torn
Dammit man I'm saying
Any man would try to find out it his girt
Was doing him wrong
That's all I was doing there outside her home

Oh I'm a little ole country boy
Just a young'un in my teens
I don't gamble drink or swear
And she did this to me

Mama said son you're going to fall
For that common Cajun queen
She's going to take you for your all
And that's what she done done to me

Black eye cracked ribs and a bloody nose
I've been victimized
I'm the victim of a one sided circumstance
No-one's heard my side
When you hear my side you'll see the rotten trick
She pulled on me
How could she that I loved do this to me

Oh I'm a little ole country boy
Just a young'un in my teens
I don't gamble drink or swear
And she did this to me

Mama said son you're going to fall
For that common Cajun queen
She's going to take you for your all
And that's what she done done to me

Lately she's been acting fishy all the time
Just like tonight
When we kissed goodnight she pulled away from me
So I hid from sight
Out of sight by her door I heard her give her love
To another guy
I guess the guy must have heard me cry
He rushed to the door

Oh I'm a little ole country boy
Just a young'un in my teens
I don't gamble drink or swear
And she did this to me

Mama said son you're going to fall
For that common Cajun queen
She's going to take you for your all
And that's what she's done to me

Talk about surprised at her when she screamed at him
It's a peeping torn - then he beat me up

I took the beating but I felt more hurt when she called the cops
Spitting on twelve months
Twelve months of loving that girl ain't my idea
Of a peeping torn
So officer please let me go 'cause I've done no wrong

Oh I'm just a little ole country boy
Just a young'un in my teens
I don't gamble drink or swear
And she did this to me

Mama said son you're going to fall
For that common Cajun queen
She's going to take you for your all
And that's what she done done to me
