

# Nothing Before Me But Thang

Parliament

Here I am  
And I'm out here amongst them  
And there is nothing before me but thang

My mom once said  
Son you got to be cool  
'Cause there is nothing before you but thang

Now how in the hell  
Can I be a good boy  
When there is nothing before you but thang

The good is bad  
But the badder the better  
When there is nothing before you but thang

My mouth is getting dry  
You know what I mean  
My mind is getting so high  
Can you dig what I mean  
Don't make me tell no lie  
Can you dig what I mean

There's nothing before me but thang  
There's nothing before me but thang  
There's nothing before me but thang

It's good to be hard  
But it's good to be good  
When there is nothing before you but thang

I've learned to live  
And to give is to live  
When there is nothing before you but thang

Turn right Turn left  
When you can't help yourself  
When there is nothing before you but thang

There's good there's bad  
But a thang is a thang  
And there is nothing before you but thang

There's nothing before me but thang  
There's nothing before me but thang
