

Better With You

Parmalee

It could be a twelve pack throw in the back of a chevy kinda fr
iday night
It could be a lazy, sunday afternoon just watching those cars g
o by
It could be a low rent hotel room
Or we could have a sunset beachfront view, yeah
Anytime or town, baby you know how to turn it up a notch or two

You can take a two-
lane town with no name turn it into vegas lights
You can take a bad day, pouring down rain turn it into clear bl
ue skies
Yeah, you put the life in the party
You shine the light in the room
As long as we're together
Don't matter what I do
It can be whatever
But it's always better with you

It could be an old t shirt in back of my drawer
Baby til you slip it on just a song on the radio
I don't know until you start singing along
It could be my plain old camouflage hat
It could be a party I don't wanna be at
Baby put you in it, don't even take a minute, crazy how just li
ke that

You can take a two-
lane town with no name turn it into vegas lights
You can take a bad day, pouring down rain turn it into clear bl
ue skies
Yeah, you put the life in the party
You shine the light in the room
As long as we're together
Don't matter what I do
It can be whatever
But it's always better with you
It's always better with you

You put me in the mood
Put the full up in the moon, and the ninety in the proof and I
don't how you do it... like they're ain't nothin' to it, naw

You can take a two-
lane town with no name turn it into vegas lights
You can take a bad day, pouring down rain turn it into clear bl
ue skies
Yeah, you put the life in the party

You shine the light in the room
As long as we're together
Don't matter what I do
It can be whatever
But it's always better with you it's always better with you, ye
ah
