

Day One

Parmalee

(Day one)

(Day one)

Day one when you walked in the room
Got drunker on you than I was on Jack
I said you're way too pretty to be sittin' here with me
You said boy don't you lie like that
And I knew that
Right then and there
You answered my un-answered prayers
In them whiskey blue eyes
Girl I knew I
Knew what I had

Day one
I saw me baby changin' your name
Day one
I knew my life would never be the same
I'm talkin' second that I met you
It was over I was done
Yeah girl I knew I'd found my forever one day
Day one

Day one hundred ninety-three
Drove out to Carolina for about a week
For you and mom to meet
Meant the world to me
Ain't never done nothin' like that
Baby like that dot on that map
Ohh you take me back to

Day one
I saw me baby changin' your name
Day one
I knew my life would never be the same
I'm talkin' second that I met you
It was over I was done
Yeah girl I knew I'd found my forever one day
Day one

Day one I had a feelin' that it might turn into two
You're one out of a million ain't it crazy that I knew
Day one

Day one
I saw me baby changin' your name
Day one
I knew my life would never be the same
I'm talkin' second that I met you
It was over I was done
Yeah girl I knew I'd found my forever one day
Day one
(Girl I had a feelin' that it might turn into two
You're one out of a million ain't it crazy that I knew)
