

# Down Town

Parmalee

It's where I was born, where I was raised  
It's where I spent my yesterdays  
Cotton rows, tobacco fields  
That's where I felt how good country feels

My granddaddy gave me my first job  
Sweatin' in that July hot  
He said, "If you follow through,  
You're tried a true,  
You'll learn a thing or two,  
'Bout the people round here"

This ain't no going down town  
When trouble comes around town  
It's a proud of where you came from town  
The kind of place where people stand their ground  
No, this ain't no going down town

We've all weathered our fair share of storms  
Ain't nothing we ain't seen before  
We get hit, get knocked down  
Get back up for another round  
Round here, round here

This ain't no going down town  
When trouble comes around town  
It's a proud of where you came from town  
The kind of place where people stand their ground  
No, this ain't no going down town

5AM, get on up  
Put a little gas in that coffee cup  
Get your boots on, hop in the truck  
'Cause what don't kill you gonna make you tough  
Makin' end's meet anyway you can  
Come sunday morning you thank the Man  
For all the love, for all your friends  
And that's why, man...

This ain't no going down town  
When trouble comes around town  
It's a proud of where you came from town  
The kind of place where people stand their ground

No, this ain't no going down town  
When trouble comes around town  
It's a proud of where you came from town  
The kind of place where people stand their ground  
No, this ain't no going down town  
No, this ain't no going down town
