

## Drink it Off

Parmalee

You got that look like you don't want to be here, baby  
Cafe Patron, staring at your phone, getting your lonely on  
Couldn't help but to see this empty seat here, baby  
By the way, your friends just told me what you got going on

No, I don't want to crash your party  
But they said that your were brokenhearted  
Girl, I know it ain't your fault  
Would you let help me you drink it off?  
Yeah, here's to moving on on the weekend  
And if you wanna turn up, baby we can  
Break out the lime and salt, I can help you drink it off  
Drink it off (yeah), drink it off (yeah)  
I can help you drink it off (yeah)  
I can help you drink it off  
I can help you drink it off

Sometimes we need a little help with the goodbye, baby  
There ain't no shame, yeah we're all the same  
Playing this crazy game  
Let me turn your bad break into a good time, baby  
Bottoms up, here's to love  
And I don't even want to know his name

No, I don't want to crash your party  
But they said that your were brokenhearted  
Girl, I know it ain't your fault  
Would you let help me you drink it off?  
Yeah, here's to moving on on the weekend  
And if you wanna turn up, baby we can  
Break out the lime and salt, I can help you drink it off  
Drink it off (yeah), drink it off (yeah)  
I can help you drink it off (yeah)  
I can help you drink it off (yeah)

No, I don't mean to be that guy, but I gotta tell you girl I can't lie  
He ain't worth it, you don't deserve this, baby, you're perfect

No, I don't want to crash your party  
But they said that your were brokenhearted  
Girl, I know it ain't your fault  
Would you let help me you drink it off?  
Yeah, here's to moving on on the weekend  
And if you wanna turn up, baby we can  
Break out the lime and salt, I can help you drink it off  
Drink it off (yeah), drink it off (yeah)  
I can help you drink it off (yeah)  
I can help you drink it off (yeah)  
I can help you drink it off (yeah)  
Drink it off (yeah)  
I can help you drink it off (yeah)  
I can help you drink it off  
I can help you drink it off
