

Enough

Parmalee

I could look in your eyes
Every day every night
Hit replay hit rewind
Ohhh

I could keep your lips on mine
Oh I swear they're paradise
If I lose you I lose my mind
Ohhh

So don't ever stop
Keep it comin'
You're the blood in my veins
So keep it pumpin'
Bein' your one
It don't get old
I want you to know

I could spend eternity
But it wouldn't be the time I need with you
Can't explain the feelin'
Ain't a second I'm willin' to lose
When it comes to your love
When it comes to your love
No I'll never get enough
No I'll never get enough

Couldn't even if I tried
It'd take a million lifetimes
No don't ever let me go
Ohhh

So I can't go on
No not a minute
Ain't beat in my heart
Without you in it
'Cause you're the one
The only one
And you gotta know

I could spend eternity
But it wouldn't be the time I need with you
Can't explain the feelin'
Ain't a second I'm willin' to lose
When it comes to your love
When it comes to your love
No I'll never get enough
No I'll never get enough

Enough of your Friday nights
Hand in mine, lookin' right in your eyes
Not a day goes by
That I don't want you for the rest of my life

I could spend eternity
But it wouldn't be the time I need with you
Can't explain the feelin'

Ain't a second I'm willin' to lose
When it comes to your love
When it comes to your love
No I'll never get enough
No I'll never get enough
I'll never get enough
