Only You

Parmalee

Only you could ever break my heart
Cause you're the only one that's got it
Only you could ever outshine the stars
The only eyes that I get lost in

I love you no makeup
Hair messed up my t-shirt
The songs that you make up
Nobody but me's heard
Oh, girl in case you didn't know

I love the way your accent comes out when you're talking to your mama
How you act like you don't know you're hot in your pajamas
And the way that you kiss me when I'm drinking whiskey with you
 (Only you, only you, only you, only you)
I love the way we take it downtown on Fridays, easy on them Sundays
Swinging on that porch swing, underneath that moon
Yeah there's millions of people to love in this world but for me girl
 there's only you
(Only you, only you, only you, only you)

Only you could ever know my scars
Cause you're the only one I'm telling (Yeah)
Only you could make me fall this hard
Take me all the way heaven

I love the way your accent comes out when you're talking to your mama
How you act like you don't know you're hot in your pajamas
And the way that you kiss me when I'm drinking whiskey with you
 (Only you, only you, only you, only you)
I love the way we take it downtown on Fridays, easy on them Sundays
Swinging on that porch swing, underneath that moon
Yeah there's millions of people to love in this world but for me girl
 there's only you

I love you no makeup
Hair messed up my t-shirt
The songs that you make up
Nobody but me's heard
Oh, girl in case you didn't know
(Only you, only you, only you, only you, only you)

I love the way your accent comes out when you're talking to your mama
How you act like you don't know you're hot in your pajamas
And the way that you kiss me when I'm drinking whiskey with you, Yeah
I love the way we take it downtown on Fridays, easy on them Sundays
Swinging on that porch swing, underneath that moon
Yeah there's millions of people to love in this world but for me girl
 there's only you
(Only you, only you, only you, only you)
