

# Nobody's Fool

Parov Stelar

You used me up  
Without turning a hair  
I tried to escape  
Just to find myself caught up in the same old game

Oh yeah

You kept me in emotional strain  
You gave me nothing but heartache and pain  
For five years I hoped against hope

Oh yeah

Five years I hoped against hope

Oh yeah

I cried for you  
And I died for you  
No longer I'm gonna be your fool

But now's the time  
I'm through with you  
Nothing is all but certain but it's true

I'll be over you  
Over you  
I'll be over you  
Over you  
Over you

Oh ain't nobody's fool

And I know there must have been some kind of sorrow  
So you entrapped yourself inside a bottle  
And I proved to you my love so true  
No longer am I gonna be your fool

You may be sure  
I won't make it through without you  
But the one I leave behind is you

I stuck by you  
Did everything I do  
No longer I'm gonna be no fool

You may be sure  
I won't make it through  
The one I leave behind is you

I'll be over you  
Over you

Ain't nobody's fool
