

# Taking Over

Parov Stelar

I'm going all around the globe  
Rich is international and baby I'm gold  
Rich is international and baby I'm sold  
Forget 'bout what you heard, just have to wait what you're told  
Only the best, you know, I only like the best things  
Make a deposit, give me Luis Vuitton and Gucci  
You know it's nothing new, one plus one is always two  
If I'm telling you the truth, money sticks to me like glue

Baby I'm dripping in diamonds  
Wearing my heart on my sleeve  
Whatever I want, I just buy 'em  
'Cause money keeps sticking on me

Go ahead and keep the change 'cause I got more than enough  
My bank account ain't going down, it keeps going up  
And if you think I'm naying ya I'm calling you bluff  
I got money honey

Tell me baby do you ever feel lonely  
Tell me baby do you ever feel sorry  
Honey please I was thinking over, taking over, taking over  
Tell me baby do you ever feel lonely  
Tell me baby do you ever feel sorry  
Honey please I was thinking over, taking over, taking over

I ain't counting problems, I ain't keeping track of time  
I'm filling up my days with a billion dollars state of mind  
Yeah I'm just sitting pretty watching all that sugar shot  
I'll never be a worker bee, ah bitch you know I run the hive (cash flow) (ye  
ah)  
A-cha-cha-cha-ching I never run low (yeah)  
Money just ain't a thing, stuff you don't know (yeah)  
You better listen to me  
The weatherman says sunny days but you know I will make it rain

Baby I'm dripping in diamonds  
Wearing my heart on my sleeve  
Whatever I want I, just buy 'em  
'Cause money keeps sticking on me

Search for buried treasure  
You don't have to look that far  
I'll be lying poolside 'cause the ocean is my backyard

Lifestyles of the rich and famous  
Count the money, yeah I made it

Tell me baby do you ever feel lonely  
Tell me baby do you ever feel sorry  
Honey please I was thinking over, taking over, taking over  
Tell me baby do you ever feel lonely  
Tell me baby do you ever feel sorry  
Honey please I was thinking over, taking over, taking over  
(taking over, taking over, taking over, taking over)  
Tell me baby do you ever feel lonely  
Tell me baby do you ever feel sorry

Honey please I was thinking over, taking over, taking over  
I'm going all around the globe  
Rich is international and baby I'm gold  
Rich is international and baby I'm sold  
Forget 'bout what you heard, just have to wait what you're told
