

## Back to Earth

Parquet Courts

I was biding my time, desperately, I walked the line  
Between health and poverty  
Looked into a face, all my thoughts they were replaced  
I had the nerve to call it soul

Get love where you find it  
It's the only fist we have to fight with  
And soon, you're headed back to earth

Found myself along a path, traced all my steps back  
Found a place to relearn to relax  
Rested like an empty cage and where the moon  
Starts everyday

And I can dress up like a saint

Get love where you find it  
It's the only fist we have to fight with  
And soon, you're headed back to earth

Twice I've been around the world and I'm sure  
There ain't no one living no more  
No choice but to buy all your own time  
Spend all your money at the casket store

Get love where you find it  
It's the only fist we have to fight with  
And soon, you're headed back to earth
