

## Goofy vs Pluto

Parquet Courts

I got a friend with a family  
And a friend who's in my family  
Got a friend who's walking  
And a friend who does the walking  
Got a friend who could be clever  
I've been wondering forever  
Is there an answer out there somewhere?

Are they  
One and the same  
Or what?

I got a friend with manners  
Depending who the man is  
Got a friend who questions  
All of my perceptions  
I've been wondering forever  
The status distinction  
Between my comparable companions

Are they  
One and the same  
Or not?

I got a friend who worries  
And he's always in a hurry  
Got a friend who is impatient  
In certain situations  
Got a friend with obligations  
He goes where [?] will take him
