

Light Up Gold II

Parquet Courts

Twice in.. comes knocking on my door
She's spinning in a... fashion gazing before
Sparkling recognition is to throw the dice first but
I don't think of something
Where is the curse because

Chorus:

Light up gold was the colour of something I
Was looking for
Light up gold was the colour of something I
Was looking for

Steady was the pace that we're not doing this way
Sitting like a miner in the consciousness to breath
..in the rivers from a.. field
Trying over something warm and real because

Chorus:

Light up gold was the colour of something I
Was looking for
Light up gold was the colour of something I
Was looking for
Yeah light up gold was the colour of something I
Was looking for
Light up gold was the colour of something I
Was looking for
