

Dirty Laundry

Parson James

You been hiding too long
So, baby, just tell me your secrets
I'll always keep them inside
No dirty laundry hanging on the line

I wanna hang on every word you say
Like a mirror, make you contemplate
All the good and all the bad things, babe
I can be the one to motivate
I know we're struggling in different ways
But I'm a shelter, I can keep you safe
Keep you safe, keep you safe

True colors show when you're looking at me
Won't let them fade, so don't you worry, baby

You (you, you) been hiding too long
So, baby, just tell me your secrets
I'll always keep them inside
No dirty laundry hanging on the line

Ooh, lay it out for me, your highs and low
All the in-betweens, you can't unfold
And I'll believe you when it starts to rain
That's the only way to fix this stain
It's on your face
And I can't stand to see you this way
Oh, this way, yeah, this way because

You, you been hiding too long
So, baby, just tell me your secrets
I'll always keep them inside
No dirty laundry hanging on the line
(You, you, you)
So, baby, just tell me your secrets
I'll always keep them inside
No dirty laundry hanging on the line

So, baby, just tell me your secrets
I'll always keep them inside
