

# High Tide, Low Tide

Parson James

I think I'm caught in your high tide, low tide  
State of mind, I'm fallin' for you  
I think I'm caught in your high tide, low tide  
State of mind, I'm fallin' for you

My empathy is killin' me  
I'm losin' sleep, because of your ghost (Your ghost)  
But honestly, it's all on me  
Your heart I seek and now I'm too close, to let go

I'm probably gonna lose myself  
It's probably gonna bruise my health

I know you love the ocean but I'm on another wave  
Swimmin' through emotions, everytime you come to me  
You always pull me closer, right before you push away  
And now I'm in too deep, to be saved

I think I'm caught in your high tide (High tide), low tide (Low tide)  
State of mind, I'm fallin' for you  
I think I'm caught in your high tide (High tide), low tide (Low tide)  
State of mind, I'm fallin' for you

You take a hit, and never quit  
Talkin' about the trouble back home (Back home, back home, back home)  
I need a sip to get a grip, before we start to take off our clothes  
Even though

I'm probably gonna lose myself  
It's probably gonna bruise my health

I know you love the ocean but I'm on another wave  
Swimmin' through emotions, everytime you come to me  
You always pull me closer, right before you push away  
And now I'm in too deep, to be saved

I think I'm caught in your high tide (High tide), low tide (Low tide)  
State of mind, I'm fallin' for you  
I think I'm caught in your high tide (High tide), low tide (Low tide)  
State of mind, I'm fallin' for you  
Fallin' for you

I think I'm fallin' for you
