

Little Fires

Parson James

They tried to love you
No malice in their heart
Little fires, little fires, little fires
They know not what they start
Not everyone can see inside you
For some its way too far
Little fire, little fire, little fire
I know just what you are

I see you burnin
And I know that pain
I see you burnin
Baby don't you lose that flame

We've all got someone
Somebody that we've hurt
Little fires little fires little fires
Are lessons that we've learned
Hurt people hurt people
Just something that I've read
Little fire little fire little fire
No matter what they've said

I see you burnin
And I know that pain
I see you burnin
Baby don't you lose that flame
I see you burnin burnin burnin
Baby don't you lose that flame

I see you burnin burnin burnin
Baby don't you lose that flame
I see you burnin burnin burnin
Baby don't you lose that flame
Baby don't you
I see you burnin burnin burnin
Baby don't you lose that flame
I see you burnin burnin burnin
Baby don't you lose that flame
I see you burnin burnin burnin
Baby don't you lose that flame
Baby don't you
