Slow Dance With The Devil

Parson James

Had a prayer I was saving, gave it up for the dark
In the heat of the night my guard comes down
You got away with desire, you got away with the flame
And all your demons take me higher but my soul is underground

And I slow dance, slow dance, slow dance with the devil

Burn me up, take me down
Take my love and blow it out
Keep the ashes from my heart and walk away
Pull me into your fire, wanna hold you tonight
I'll slow dance with the devil

The sky ain't watching and the crows never weep
And the road to salvation crumbling under me

So I slow dance, slow dance, slow dance with the devil
Slow dance, slow dance, slow dance with the devil

Burn me up, take me down
Take my love and blow it out
Keep the ashes from my heart and walk away
Pull me into your fire, wanna hold you tonight
I'll slow dance with the devil

Torch my soul up in smoke
Heaven knows
Hell below

Burn me up, take me down
Take my love and blow it out
Keep the ashes from my heart and walk away
Pull me into your fire, wanna hold you tonight
I'll slow dance with the devil

With the devil
Slow dance with the devil (with the devil)
