

# Damage

PARTYNEXTDOOR

You're the only one that makes me wait all the time  
Oh, yeah, you blow my mind  
Boom, boom, you blow my mind  
You're the only one that gets under my skin  
You're doin' damage  
That nobody's ever did, oh

Do I gotta chase you every summer?  
Do I have to replace you every summer?  
You're the only woman on my mind (mind)  
You're the only way I spend my time  
Tick, tick, tick, boom  
Can't get you out of the room of my head  
This shit takes two  
Is it too soon to get you into my bed?  
I want you now  
I need you off the ground  
I want you screamin' out loud  
I want your body right now  
I can't help it right now

You're the only one that makes me wait all the time  
Oh, yeah, you blow my mind  
Boom, boom, you blow my mind  
You're the only one that gets under my skin  
You're doin' damage  
Nobody's ever did, oh

Do I gotta face you with another?  
I'll never replace you with another  
You're the only man that's in my mind  
You know that nobody hit it right  
Tick, tick, tick, boom  
This ain't a honeymoon, we all night instead  
Sleep until noon  
I still assume that you'll be in my bed  
I want it here, don't make me wait all year  
Already facin' my fears  
Come closer to my ears  
I gotta hear 'em all clear

You're the only one that makes me wait all the time  
Oh, yeah, you blow my mind  
Boom, boom, you blow my mind  
You're the only one that gets under my skin  
You're doin' damage  
That nobody's ever did, oh  
You're the only one that makes me wait all the time  
Oh, yeah, you blow my mind  
Boom, boom, you blow my mind  
Ooh, yeah

You're the only one that makes me feel some type of way  
You're the only one that makes me feel, night and day  
Night and day (ooh yeah)  
You're the only one that makes me feel some type of way  
You're the only one that makes me feel, night and day

Night and day (ooh yeah)  
You're the only one that makes me feel some type of way  
You're the only one that makes me feel, night and day  
Night and day (ooh yeah)  
You're the only one that makes me feel some type of way  
Type of way

You're the only one that makes me wait all the time  
Oh, yeah, you blow my mind  
Boom, boom, you blow my mind  
You're the only one that gets under my skin  
You're doin' damage  
That nobody's ever did, oh, oh
