

## Work It Out

PARTYNEXTDOOR

Who could, hit those, harmonies  
Better than me  
Better than me  
Who could, hit those, harmonies  
Better than me  
Better than me  
So I tell her

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
(Know ya need it, listen)

I was at the barber shop  
Weather was kinda hot  
Than I saw a teardrop drop to the floor  
At that moment girl I was sure that  
You're the only girl that I need up in my life  
And I know it's far but girl you could be my wife

And any time you need a ride, oh  
You could just call my phone  
And anytime you lonely girl (I know)  
Baby you ain't gotta be alone  
And anytime you missin' me  
You know where I'm gonna be, yeah  
Shopping malls for shopping sprees  
Anything for my baby

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me  
I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me

Shawty, anything you want  
Anything you need and desire  
(Ooh we can work it out)  
Shawty, everything you lost no matter the cost  
I could bring the fire  
(Ooh we can work it out)  
I could take you to a place  
That erase the grey's of depression  
I'm tryna show you time and place to create the state of perfection  
(Ooh we can work it out)  
And anytime you need a ride, oh  
You could just call my phone  
And anytime you lonely girl (I know)  
Baby you ain't gotta be alone  
And anytime you missin' me  
You know where I'm gonna be, yeah  
Shopping malls for shopping sprees  
Anything for my baby

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me  
I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me

Yeah, yeah, yeah  
Listen baby girl, you know just what it is to ya  
And I be meaning everything that I said to ya  
I'm tryna make your heart drop to the floor  
But I sing R&B and I rap hardcore  
I could put you on a lifestyle  
But the trojans got me knowin'  
You just start a night baby girl  
I'm just glowin'  
It's the poker game of love  
You got my heart saying fold it

And anytime you need a ride, oh  
You could just call my phone  
And anytime you lonely girl (I know)  
Baby you ain't gotta be alone  
And anytime you missin' me  
You know where I'm gonna be, yeah  
Shopping malls for shopping sprees  
Anything for my baby

I just wanna work it  
Really wanna work it  
I just wanna  
I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me  
I just wanna work it  
Really wanna work it  
I just wanna

I just wanna work it out  
I'll be there when you need me  
It's not hard to believe me
