Passafire

I'm looking back upon my life with no regret  
The best is yet to come and I can see its silhouette  
Behind the curtain is another sunset  
But I know that when it rises I'll be seein' it again  
I've got a reason and it's way above the rest  
Survival of the fittest and I put it to the test  
It's not a race and it's not a contest  
I do my best to see what's real  
I don't want to pretend  
I don't want to pretend like I can fly now  
I don't want it to end  
I don't want it to end how'd I get so high now  
I don't think it depends  
I don't think it depends on what you buy now  
It's about all your friends  
It's about all your friends and the love you find now

I'm looking forward to the days yet to come  
It's never guaranteed but this one already begun  
Under the skies and the rising sun  
I give thanks for everything and everyone  
I've got a vision on a visionary quest  
Let me clear my throat so I can get it off my chest  
Slow the pace and enjoy the rest  
There's so much left inside to feel  
I don't want to pretend  
I don't want to pretend like I can fly now  
I don't want it to end  
I don't want it to end how'd I get so high now  
I don't think it depends  
I don't think it depends on what you buy now  
It's about your friends  
It's about your friends and the love you find now
