

# Keepin' On

Passafire

You can seek a different path but there's only one way  
To the top of the ladder  
You can try and do the math but the number won't say  
How much a soul really matters  
You can try and make it last but it's true that some day  
Rocks start to shatter  
And the sky turn to black can't see the sun rays

So we keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along  
To the sound of a heartbeat drum  
Yes, we keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along  
To the sound of a heartbeat drum

You could dive deep down but there's only one way  
To the bottom of the ocean  
You could ask all around but the fish won't say  
Where they keep the potion  
You could try to dig it out but it's true that some day  
All this erosion  
Could bring about an end to it all with one wave

So we keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along

To the sound of a heartbeat drum  
Yes, we keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along  
To the sound of a heartbeat drum

No I don't want to live in a world of water  
I want some land to give to my sons and daughters  
Will we get there?  
I don't know

You could put it in a box but there's only one way  
To conceal information  
You could buy more locks, do you really feel safe?  
In a divided nation  
You could buy more stocks, it's a gambling game  
Full of greed and frustration  
Opportunity knocks and it's calling my name

So we keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along  
To the sound of a heartbeat drum  
Yes, I'm gonna keep on keepin' on  
The rock stone I've been sleepin' on  
Got me stoned and I dream along  
To the sound of a heartbeat drum

Keep on keepin' on (x8)
