

Fall Away

Passenger

Just for a moment
You see it clearly
Ever so fleeting now it's gone
Just like a sunset
You'll never forget
Sinking down over everyone

You should know by now
That to chase the clouds is a foolish game to play
Just for a moment
You see it clearly
And you let it fall away

And just for a second
You hear the silence
Over the noise just fades away
Just like a melody
From some forgotten dream
Just like a song you used to play

You should know by now
That to say it's over is a foolish thing to say
Just for a second
Lost in the silence
You just let it fall away

You should know by now
You could hold it in your hands
Had a lifetime of livin'
But I still don't understand
For it comes and goes like the waves upon the sand
You just let it fall away
