

## Dark Beach

Pastel Ghost

Laying on a dark beach  
Pulsing waves cover me  
Flowers bloom on the sea  
Silver sand underneath

Talk to me as I am sleeping  
Hold me while I'm dreaming  
Honestly, I could just breathe you in  
Met you when my heart was bleeding  
I'm constantly feeling  
Drifting through an endless reverie

Twilight moon, interlude  
Fell in love in my youth  
On a cloud, not a sound  
Silent kiss just like this

Talk to me as I am sleeping  
Hold me while I'm dreaming  
Honestly, I could just breathe you in  
Met you when my heart was bleeding  
I'm constantly feeling  
Drifting through an endless reverie
