

In the black in the sea  
Swirling noise uncertainty  
Shut my eyes you pulled me in  
Deep into a dark current

Drown me slowly in the night  
Lies reflecting in your eyes

Trapped inside a fantasy  
Sinking in my misery  
You know only to deceive  
Love can be illusory

Don't say sorry I won't cry  
Lies reflecting in your eyes

There is no transparency  
You're just a faded memory  
Empty words you never meant  
I'll never let you in again

Drown me slowly in the night  
Lies reflecting in your eyes
