

Break Open

Pat Barrett

More than I ever imagined
More than I ever believed
God of grace
So rich in mercy
How great Your love for me

So break open this box around my head, around my heart
You're better than I think
You're better than I think
Break open this box around my head, around my heart
You're better than I think
You're better than I think
Yeah

Always better

The gift of God too vast to measure
The price You paid on calvary
You gave Your life
Oh what a Savior
Oh how great Your love for me
Oh how great Your love for me

Oh break open this box around my head, around my heart
You're better than I think
You're better than I think
Oh break open this box around my head, around my heart
You're better than I think
You're better than I think
Yeah

So much better
Change in my mind
See You all around me

You're the ground beneath me
Air I'm breathing
Hope when all feels lost
You're the light in darkness
Strength in weakness
Worthy of it all

You're the ground beneath me
Air I'm breathing
Hope when all feels lost
You're the light in darkness
Strength in weakness
Worthy of it all

Oh I've seen You everywhere
You're the ground beneath me
Air I'm breathing
Hope when all feels lost
You're the light in darkness
Strength in weakness
Worthy (of it all)
Oh You're the ground beneath my feet

Oh You're the ground beneath me
Air I'm breathing
Hope when all feels lost
You're the light in darkness
Strength in weakness
Worthy (of it all)

So break open this box around my head, around my heart
You're better than I (I think)
(You're better than I think)
Oh, break open this box around my head, (around my heart)
(You're better than I think) Break Open
(You're better than I think)
Oh break open this box around my head, around my heart
You're better than I think
You're better than I think
Oh break open this box around my head, around my heart
Oh You're better than I think
(You're better than I think)
Oh You're the ground beneath my feet
Oh You're the ground beneath me
Air I'm breathing
Hope when all feels lost
Oh You're the ground beneath my feet
Oh You're the ground beneath me
Air I'm breathing
Hope when all feels lost
You're the light in darkness
Strength in weakness
Worthy (of it all)
