

Brave

Pat Benatar

I remember the night
When destiny finally found us
I remember holding on
When the stars were crashin' all around us
We thought that the world was ending
But you know it wasn't true
'Cause I still love you
I still love you

R: I'll be brave for you
And every day I pray for you
We can be strong in each other's arms
And I'll be brave, I'll be brave for you

I know that you're afraid
You know that I'm afraid, too
But you gotta have faith; you gotta listen
To what your heart is telling you
You know love's a funny thing
You just gotta let it be
Like you and me; you and me

R:

Just look at the sky above us
Let the sun shine down on us
Stand with me here together
In the light of love now
And forever
