

# Big Cold Wind

Pat Boone

There was a big cold wind  
It came a-rollin' down this hill  
It passed an old pine tree  
That tree is a-shiverin' still  
Now that wind was cold as it could be  
But no colder than the kisses you've been givin' me  
They're like a big, a big, mighty big  
Like a big cold wind

Ah, since your heart has turned on me  
There's nothin' mo-o-re to sa-a-ay  
There's someone new that you wanna see  
So I'll be goin' on my way

I'm gonna miss your kiss  
And the arms that held me tight  
I'm gonna miss those nights  
When things were goin' right  
But I want to tell you just before I go  
That I pray your heart will never ever know  
A love that turns about can freeze you out  
Like a big cold wind

Ah, since your heart has turned on me  
There's nothin' mo-o-re to sa-a-ay  
There's someone new that you wanna see  
So I'll be goin' on my way

I'm gonna miss your kiss  
And the arms that held me tight  
I'm gonna miss those nights  
When things were goin' right  
But I want to tell you just before I go  
That I pray your heart will never ever know  
A love that turns about can freeze you out  
Like a big cold wind

A love that turns about can freeze you out  
Like a big cold wind
