

# College

Pat Green

We were just dumb kids with a six pack  
That a bad fake ID bought  
Sittin' on the livin' room couch  
Hopin' that we didn't get caught

And when we did, my dad  
Had some good advice for me  
He said, "Son, there's a time and place  
For just about everything, it's called 'College'"

Next thing I know I'm packin' up  
And hey I'm outta here  
A backseat full of clothes  
And my old cavalier

And there was empty pizza boxes  
Attacked all around the room  
A couple of beers on a Tuesday  
And one in the afternoon, hey college

Those were the best days of my life  
I found my friends, myself, and my wife  
I learned almost everything that I know  
Without ever gaining knowledge  
In college, in college

I had such a good time in those four years  
That I stretched it into six  
And I'd like to thank ole George's Bar  
For the the classes that I missed

I was searchin' for the meanin' of life  
When I saw her walk my way  
There was not doubt in my my mind  
That it wasn't about a GPA

Those were the best days of my life  
I found my friends, myself, and my wife  
Learned almost everything that I know  
Without ever gainin' knowledge  
In college

Those were the best days of my life  
I found myself, my friends and my wife  
Learned almost everything that I know  
Might have gained a little knowledge

In college  
In college  
In college  
In college
