

Stevie

Pat Travers

Stevie I think that we should
Sit right down
And talk it over
You know the time has come
I know that I've done pushed ya
Off my shoulder
But I thought that
Whatever makes you weak
Must make you strong
And ever since I can remeber
You've been so talented
Oh you can do anything you wanted
Why can't you settle down
All the fussing and fighting
So much energy
If we could stick a line on you
We could probably light the world
But I guess I was the same once
Not too long ago
I'd stay out drinkin' all night
And I'd get all the girls
But who do you know
You're such a long way
From understanding
Yeah
What rule today
Some music
To help you know
Just what to say
Yeah
Ohhh...
You know I ain't exactly
Pointing this whole thing at you
I'm saying it as much for myself
As I am for you
And if you weren't my brother
Well I'd probably let it all slip by
But you're a relection on myself
So I'll take you by the hand
So shout it
I will be strong
Don't doubt it
I will go on
Don't doubt it
I will be strong
I will go on
I will be strong
I will go on
I will be strong
I will go on
Shout it, shout it...
We will be strong
We will go on...
