

Wat'cha Gonna Do Without Me

Pat Travers

Hot clothes , fast cars..do anything to be a star,
I've got my feelings , back stabbers ..how can you
deal with those money grabbers..now tell me how
you sleep at night, without my arms to hold you tight?
your mind was funny but your body needs me and thats
the way it will always be.....
you clawed your way, right up to the very top,
but there's still one thing, baby that you aint got..
and that's me....watch you gonna do without me.??...
now tell me , watch you gonna do without me.??....
tainted love, cold cash
don't you know that your running with trash?
your guilty as... association, I think it's time for
investigation.. don't talk to me, true love,
cause talk is cheap and im hurt enough...
your running from the gutter, the bottom of the well
just to live in your own rotten hell...
you clawed your way, right up to the very top,
but there's still one thing... baby that you aint got,
and that's me.... watcha going do without me.???....
now tell me...watcha gonna do without me?....
you'll probably take up the guitar.....guitar
repeat
well you clawed your way, right up to the very top
but there's still one thing, baby that you aint got...
and that's me....watch you gonna do without me?
don't tell me...watch you gonna do without me?
yeah watcha gonna do without me????ooooooooohhhhh
yeah...dont tell me....
