

Rid the Womb

Pathology

as I plant my seed
into your womb
into your womb
I plant my seed

the reaction gestates
partial hemorrhaging incurres
rid the womb

stomachs pulsate and contract
inards- inards- inards - gone

as I plant my seed
into your womb
into your womb
I plant my seed

as you lay opened up
viscera fills your mouth
twenty one grams you leave
your soul to peace . . .

breathing- gasping
gasping- choking
