

Gone With the Night

Patrice Rushen

In the darkness surrounding me
Lurking shadows are all I see
I hear tales of the scary places
Shady faces at the scene
How can I get away from here?
I just want to disappear
I'll fade into the twilight out of sight

Gone
Gone with the night
I'll be gone
Gone with the night

I'm gone
Gone with the night
I'll be gone
Gone with the night

Have I entered the danger zone?
Everyone here is on their own
And can I ever face it alone?
I have had all I can take
Got to be a way to escape
I'll retreat in the moonlight far from sight

I don't know what the night will show
I'm not sure about where it goes
But I'm reaching out for the light
I'll be vanishing with the night

I'll be gone
Gone with the night
I'll be gone
Gone with the night

I'm gone
Gone with the night, yeah
I'll be gone
Gone with the night

I'm gone
Gone with the night, woo!
I'll be gone
Gone with the night

I'm gone
Gone with the night, yeah
I'll be gone
Gone with the night

From a nightmare of mystery
I awake to reality
I'll be searching with all my might
For the answer beyond the night

I'll be gone
Gone with the night

I'll be gone
Gone with the night

Gone
Gone with the night, yeah
I'll be gone
Gone with the night

Gone
