

Somewhere

Patrice Rushen

Speed my love to him
I can't leave without that one last try
My passion just won't die
It seems like paradise
In a secret world of tender dreams
Between just you and me

Reaching for a star
A fantasy to set us free

Somewhere a place for us
We don't have to tame the fire we feel
We don't have to be ashamed of what is real
Somewhere there's a place where we can be
Somewhere there's a place for you and me

Time is on your side
I will be the best that I can be
If you believe in me
And mend our broken hearts
So that we can just begin again
Together we will win

Side by side we'll reunite
And our love will go on

Somewhere a place for us
We don't have to tame the fire we feel
We don't have to be ashamed of what is real
Somewhere there's a place where we can be
Somewhere there's a place for you and me

How could I know a part was missing
And all of the time it was you
You were the thread of my life, ooh

How could I know a part was missing
And all of the time it was you
You were the thread of my life, ooh-ooh

Somewhere a place for us
We don't have to tame the fire we feel
I know our love is real
Somewhere a place for us
There's a place where we can be
Oh, just you and me
Somewhere, somewhere, somewhere
I know our love is real
Somewhere a place for us
There's a place where we can be
A place for you and me
Somewhere, ooh ooh ooh ooh ooh
(Somewhere for us) Somewhere, oh, hey
(Somewhere for us) Oh, oh, oh, oh-ooh
(Somewhere for us) Somewhere
