A Night To Remember

Patrick Nuo

I woke up today in stereo
they played my song on the radio
bright morning light I know you like it
but I run to my car and get inside
I´m already daydreamin ´bout tonight
tonight is the night don´t try to fight it

And even if they would say
I could have forever and a day
no way I don´t want forever I just want tonight

Chorus:
Oh and this could be a night to remember
you and me and a night to remember
I know that we would never surrender
even when the sun is risin' again

I get of the car and on the floor
I could never ever never never ask for more
only the moon is full of sorrow
so let´s light up this night is state of the art
the DJ´on and he´s workin´ hard
nobody cares about tomorrow

And even if they tried to say
I could have forever and a day
way I don´t want forever I just want
tonight

It`s just begun there´s no way back
tonight´s a day turned into black
a little suupernatural emotion
I wanna see that midnight sunshine
a little bit of dream comes true time
