

# Emotionally Connected

Patrick Nuo

I've got nothing but thoughts of you in my head  
Everything else is just passin' by  
And again and again this feeling will run  
Everyday and everynight

We will never have to lie  
We will never have to say goodbye  
Because we are - because we are

Emotionally connected we are  
So love infected  
Emotionally connected we are  
So in love respect it  
Emotionally connected we are  
In love and I just  
Told you I don't know what to do  
When I fall in love with you

Emotionally connected  
Emotionally connected  
Emotionally connected

You don't go nowhere without my love  
I never have to make you stay  
Now I see you standin' by the door  
Even though you're miles away

We will never have to lie  
We will never have to say goodbye  
Because we are - because we are

Emotionally connected we are  
So love infected  
Emotionally connected we are  
So in love respect it  
Emotionally connected we are  
In love and I just  
Told you I don't know what to do  
When I fall in love with you

Emotionally connected  
Emotionally connected  
Emotionally connected

Because we are - because we are

Emotionally connected we are  
So love infected  
Emotionally connected we are  
So in love respect it  
Emotionally connected we are  
In love and I just  
Told you I don't know what to do  
When I fall in love with you

I just  
Told you I don't know

Told you I don't know  
Told you I don't know  
Told you
