

Nothing Until I Got You

Patrick Nuo

I wanna wake up yesterday
to stop the sadness in your eyes
before my dreams were crept away
before the rain became my ice

all the gloomy words you left behind
are crawlin' on the backseat of my mind

I got nothin until I got you
now that I know what your love can do
I got nothin until I got you
I guess I never knew

After all that's said and done
I see the world in black and white
I don't how to get along
when all my dreams are out of sight

all the gloomy words you left behind
are crawlin' on the backseat of my mind

I got nothin until I got you
now that I know what your love can do
I got nothin until I got you
I guess I never knew

somethin deep inside my soul
was turnin' down my view
affection hidden down below
I guess I never knew

do do do do ...
do do do do ...

all the gloomy words you left behind
are crawlin' on the backseat of my mind

I got nothin' until I got you
now that I know what your love can do
I got nothin' until I got you
I guess I never knew

Oh I never never never never
nothin until I got you
now that I know what your love can do
I got nothin until I got you
I guess I never knew

I guess I never knew yeah
I guess I never knew
