

Deep Blue Love

Patrick Stump

I just can't believe I love someone so blue
I've made up my mind, I'm out of my mind oh for you
I can't believe, I can't believe it's true
My deep blue love, yeah

We've had some good times
We've had some bad
But I'd never take, I'd never take
I'd never take a single one back
And you're my special kind of broken heart
And you break me in two
You live like no tomorrow
I wanna spend tomorrow
With you, yeah

From force to fight
From wrong to right
From bloodshot day
To sleepless night
Please, don't ever stop breaking my heart

I just can't believe I love someone so blue, blue blue blue
Made up my mind, I'm out of my mind, oh for you, yeah
And I just can't believe, can't believe it's true
My deep blue love

I know your footsteps
I know your face
I know the smell of your hair when you get out the shower
But I know you like your space
You're the only kind of love I want
But you break me in two, yeah
You live like no tomorrow
But I want to spend all of my tomorrows with you

From person to pride
From wrong to right
From bloodshot day to sleepless night
Please, don't ever stop breaking my heart

But I can't believe I love someone like you
Made up my mind, made up my mind, made up my mind, it's you
I can't believe it's true
My deep blue love
